

'TEACHER RESOURCES' LESSON PLAN NO 2

DRINK HOLDER

SUITABLE FOR:

5 to 7yrs

RATING:

Easy **Moderate** Hard

LEARNING OUTCOMES:

Design, Decorate

TIME:

1 session

WHAT YOU WILL NEED:

EC Foam Sheets

EC Foam Shapes

EC Clear Gum

Scissors

Stapler

Pegs

METHOD:

Cut a piece of foam sheet about 10 cm tall, and long enough to wrap around a can or drink bottle with about 2cm overlap.

Cut some shapes from the foam or use the pre-cut EC Foam Shapes. You could write 'Dad' or cut out some shapes of things your Dad likes, for example if he likes football you could cut out a football shape.

Attach the shapes onto the foam sheet with EC Clear Gum and hold in place with pegs.

Glue along the 2cm overlap edge of the foam sheet and attach onto the other end. Hold in place with a few staples.

When the glue dries, remove the pegs and you have a colourful present for Dad.
