### METHOD:

Mix up the EC Sculpt-it using the directions on the packet.

Half fill a Cookie Cutter mould with the Sculpt-It and press into the corners with an EC Funstix or satay stick to eliminate any air bubbles.

Fill the Cookie Cutter and smooth off the top.

Embed a paper clip in the EC Sculpt-It halfway so it can be used as a loop to thread the string through.

When the Sculpt-It has dried, gently remove it from the Cookie Cutter.

Paint and decorate.

When dry, thread through the paperclip and thread some beads onto the string to complete the medallion.
